Welcome Messages

Message from the AALA Presidents

On behalf of the Executive Board of the Asian Association for Language Assessment, we would like to warmly welcome you to the 12th International Conference of AALA! This year's conference theme, "Humanistic Approach to Assessment, Standards, Innovation, and Accountability," highlights an important agenda—revisiting the critical role that humans play in ensuring the quality of second language teaching, learning, and assessment in the era of rapid technological advancement. AALA's mission is to bring together researchers, practitioners, educators, and students to promote language assessment research and practice in Asia. In particular, AALA takes great pride in its annual conference, which presents great opportunities for exchange of ideas and collaboration among our members, as well as for welcoming new participants to our vibrant community. We are delighted to share with you the exciting program of this year's conference, featuring distinguished speakers as well as symposia, research papers, and posters on diverse topics that showcase the quality of the research conducted by our colleagues in Asia and beyond.

We are grateful to all those who have worked hard to organize the AALA 2026 conference. First, we would like to express our heartfelt thanks to the local co-chairs, Liying Cheng and April Jiawei Zhang, as well as the members of the Organizing Committee. Your leadership, dedication, and tireless efforts have been instrumental in putting together this wonderful conference. Our special thanks also go to the sponsors of this year's conference: British Council, Duolingo English Test, Language Training and Testing Center (LTTC), the TOEIC Program at ETS, Pearson, LanguageCERT, City University of Macau, Language Testing and Assessment, Language Testing in Asia, Hong Kong Elite and Education Association, Sejong Korean Language Assessment (SKA), and Hong Kong Macao China Education Research Institute. With your valuable support, we look forward to making this conference a great success.

This year's annual conference is the first to be held in Macau. The city's rich culture and unique charm provide an ideal setting for a truly memorable conference. We sincerely hope that you enjoy every aspect of this four-day event!

Sincerely

Yasuyo Sawaki, President, Asian Association for Language Assessment
Jason Fan, Co-President, Asian Association for Language Assessment

Welcome Messages

Message from the Local Conference Co-Chairs

It is a privilege and tremendously responsibility to welcome you ALL to the 12th International Conference of the Asian Association for Language Assessment, hosted by City University of Macau from 18 to 21 September 2026.

Asia holds a uniquely strategic geopolitical, economical, and educational location in the world today. Asian scholars play a leading role in international testing and assessment research. For this very reason, we chose the theme of ASIA – Assessment, Standards, Innovation, and Accountability – foundational pillars in our field of research. We added “Humanistic Approach to Assessment, Standards, Innovation, and Accountability” to consider how language assessment should remain centred on people while responding thoughtfully to ever fast technological changes, evolving local and international standards, and increasing demands for accountability globally. These conversations are especially timely as our field explores new challenges and possibilities while continuing to uphold fairness, inclusivity, ethical responsibility, and respect for learners as our central goal in education.

We proudly host more than 200 speakers from 19 countries and regions this year at the 12th International Conference of the Asian Association for Language Assessment. During the conference, we will listen to high-impact plenary speeches from 3 internationally recognised Asian-heritage scholars, four competence-packed workshops, 36 featured speakers representing leading research from various Asian regions and 12 local and international sponsors, 110 parallel sessions, and 20 posters. Most importantly, you will engage in informal exchanges that bring together researchers, educators, practitioners, and students from across Asia and beyond. The conference will provide a welcoming space in which we can share our work, encounter fresh perspectives, renew professional connections, and begin new collaborations.

We are delighted to host you in Macau, a city where diverse traditions, cultures, and cuisines meet. Enjoy not only the intellectual richness of the conference but also the distinctive heritage, hospitality, and character of our city!

Thank you very much to our speakers, presenters, participants, sponsors, volunteers, and the organising committee for making this milestone gathering possible. We wish you a stimulating, rewarding, and memorable AALA 2026 right here at the City University of Macau.

Warmly,
Liying Cheng, Local Conference Co-Chair
April Jiawei Zhang, Local Conference Co-Chair

AAALA Awards and Special Issue

AAALA Outstanding Dissertation Award 2025

Shengkai Yin (Federation University Australia)

Assessing Critical Thinking in EAP Speaking: The Development and Validation of a Rating Scale

Submission ID: AALA20260148

Best Student Paper and Poster Awards

The Winner of the 2026 AALA Best Student Paper Presentation

Yanxin Wang (Zhejiang University, China)

Feature-Based Modeling and LLM-generated Scores for Automated Speech Evaluation

Submission ID: AALA2026073

The Winner of the 2026 AALA Best Student Poster Presentation

Han Yining (Nanyang Technological University, Singapore)

Comparing human and GenAI-mediated interlocutors in L2 speaking assessment: Effects on linguistic and neurocognitive behaviour

Submission ID: AALA20260134

Special Issue Supported by Language Testing in Asia

A Humanistic Approach to Assessment, Standards, Innovation, and Accountability

Eligibility and deadline. The Springer Nature collection is open until 1 April 2027. Only work accepted and presented at AALA 2026 is eligible for consideration.

Focus. Human-centred assessment design and practice; standards, fairness and equity; innovation and technology; and accountability, policy and public trust.

Selection. Stage 1 screens AALA 2026 presentations for quality, relevance and methodological rigour. Invited manuscripts then undergo Language Testing in Asia's standard double-blind peer review; an invitation does not guarantee publication.

Guest editors. Wei Wei (Macao Polytechnic University), April Jiawei Zhang (City University of Macau) and Liying Cheng (City University of Macau).

Timeline. Conference selection: 18–20 September 2026; invitations: 1 October 2026; full manuscripts: 1 April 2027; first reviews: 1 July 2027; revisions: 1 November 2027; final decisions: 1 December 2027; delivery to LTA: February 2028; expected publication: early–mid 2028.

Collection page. link.springer.com/collections/hfddgecgfa

Conference Theme and Host

Humanistic Approach to Assessment, Standards, Innovation, and Accountability

AALA 2026 explores how humanistic perspectives can guide and transform contemporary assessment practices, policies and technologies. The conference brings together researchers, educators, practitioners and students to examine how assessment can remain ethical, fair, context-sensitive and accountable while responding to rapid technological and social change.

The programme highlights human-centred assessment design, fairness and equity across multilingual and digital contexts, innovation including generative AI and automated feedback, and the role of transparency and public trust in educational and high-stakes assessment.

Hosted by City University of Macau — School of Education

Address in English: Avenida Padre Tomás Pereira Taipa, Macau

Taxi Address in Chinese: 澳門城市大學氹仔校區行政樓

Taxi Address Pronunciation in Mandarin (Pinyin): Àomén Chéngshì Dàxué Dàngzǎi Xiàoqū Xíngzhèng Lóu

Taxi Address Pronunciation in Cantonese (Jyutping): Ou3 mun4*2 sing4 si5 daai6 hok6 tam5 zai2 haau6 keoi1 hang4 zing3 lau4

Venue and Campus Map

Registration, help desk and lost and found are at the Culture Centre entrance.

Main programme locations

Culture Centre in Building C;

HG01, HG02 and HG03 are in Building H;

Classrooms are in Building L.

Please consult the detailed programme for the room assigned to each presentation.

Committees and Volunteers

Local Organising Committee

- Liying Cheng — City University of Macau
- April Jiawei Zhang — City University of Macau
- Jiayi Li — City University of Macau
- Shelly Ye — City University of Macau
- Wei Wei — Macao Polytechnic University
- Cecilia Guanfang Zhao — University of Macau
- Qin Xie — University of Macau
- Matthew Wallace — University of Macau

Proposal Reviewers

- Cecilia Guanfang Zhao — University of Macau
- Qin Xie — University of Macau
- Rachel Wu — National Taiwan University
- Rie Koizumi — University of Tsukuba
- Xun Yan — University of Illinois at Urbana-Champaign
- Yong-Won Lee — Chair, Seoul National University
- Youngsoon So — Seoul National University

AALA Executive Board

- Yasuyo Sawaki — Waseda University
- Jason Fan — University of Melbourne
- Yong-Won Lee — Seoul National University
- Mingwei Pan — Shanghai International Studies University
- Thi Ngoc Quynh Nguyen — VNU University of Languages and International Studies
- Jing Zhang — Yunnan University
- Keita Nakamura — Tohoku University
- Yasuhiro Imao — The University of Osaka
- Ying Chen — Ocean University of China
- Shangchao Min — Zhejiang University
- Limei Zhang — Nanyang Technological University

Conference Volunteers

We extend our sincere gratitude to the dedicated volunteers whose time, effort, and commitment were instrumental to the success of this conference.

Wei Wei, Cecilia Guanfang Zhao, April Jiawei Zhang, Liying Cheng, Qin Xie, Matthew Wallace, Jiayi Li, Shelly Xueting Ye

Plenary Speakers

Professor Eunice Eunhee Jang

University of Toronto

Saturday 19 September | 09:30–10:30 | Culture Centre

Empowering Learners and Educators: Critical AI Literacy for Learning-Oriented Language Assessment in the Age of Generative AI

When students can ask ChatGPT to help them write an essay or practice a conversation, what does it really mean to be a competent language user? This is not merely an academic integrity issue. It challenges us to rethink what language ability actually entails (Xi, 2025). If AI can produce fluent text, then competence may lie less in the final product itself and more in learners' capacity to engage meaningfully with language tasks and use feedback to improve. This plenary argues that learning-oriented assessment (LoA) offers a constructive response to this challenge because it shifts the focus from measuring linguistic output to facilitating deeper cognitive and metacognitive competencies (Turner & Purpura, 2016).

Drawing on two research projects, BalanceAI with school-age children and APLUS with university students, the talk examines how AI-supported LoA can provide timely feedback that strengthens learner agency and self-regulated learning through the metacognitive cycle of goal-setting, monitoring, and reflection that characterizes autonomous learners (Zimmerman, 2008). For teachers, such assessment systems can provide timely diagnostic information that supports responsive instruction. Yet, realizing this promise requires more than technical proficiency. Teachers need critical AI literacy to understand not only how to use these tools, but also how to question their limitations and blind spots. The reality is that AI systems often work less well for the students we serve. Research shows scoring differences for students from different linguistic backgrounds, and speech recognition systems may privilege native-speaker speech features (Hannah et al., 2022; Jang & Sawaki, 2025; Kim & Ockey, 2024; Wang & von Davier, 2014). Teachers therefore play a crucial role in interpreting results, challenging bias, and ensuring that AI serves all learners fairly.

The talk concludes by charting future directions for the language assessment community, advocating for culturally responsive AI design, human-in-the-loop approaches (Bolender et al., 2023), regional validation studies, and collaborative frameworks that welcome Asian voices in shaping how these technologies are developed and deployed.

Dr. Eunice Eunhee Jang is a Professor at the Ontario Institute for Studies in Education (OISE), University of Toronto. She believes that how we assess students shapes not only what they learn, but who they become. Her work reimagines assessment as a practice of recognition rather than gatekeeping, with a particular commitment to multilingual learners and historically underserved communities. She played a key role in developing Ontario's Steps to English Proficiency framework and now leads projects such as BalanceAI and APLUS, exploring how AI-supported diagnostic and learning-oriented assessments can strengthen teachers' and students' agency.

Plenary Speakers

Professor Xun Yan

University of Illinois Urbana-Champaign

Saturday 19 September | 13:00–14:00 | Culture Centre

Innovating the Assessment of Argumentation: The Story Behind the Evolution of a Local Writing Assessment

Assessing the construct of argumentation in second language writing is a perennial concern for both language testing and second language writing specialists. While scholarship in L2 writing has substantially deepened the theoretical construct of argumentation, language testing research must constrain its operationalization to ensure reliability, validity, and practicality. In large-scale assessments, argumentation is often captured indirectly, folded into broader categories such as organization or task completion. Local assessments, however, can serve as productive sites to explore more direct and fine-grained approaches to assessment argumentation. This talk traces the evolution of a local writing placement test designed to measure argumentation more directly and serve a complex network of stakeholders associated with the local writing program. Largely through a community of practice approach, this collaborative work has involved developing a shared construct definition among stakeholders, revising writing tasks to elicit argumentation, validating new rating scales, and exploring technological tools to automate selected processes. Ultimately, these innovations can strengthen alignment between assessment and instruction, enhancing the instructional effectiveness of L2 writing instructors and the learning experience of L2 writers.

Xun Yan is a professor of Linguistics, Second Language Acquisition and Teacher Education, and Educational Psychology at the University of Illinois Urbana-Champaign. His research interests include speaking and writing assessment, psycholinguistic and computational approaches to language testing, and language assessment literacy. His work can be found in *Applied Linguistics*, *Assessing Writing*, *Journal of Second Language Writing*, *Language Assessment Quarterly*, *Language Learning*, *Language Testing*, *Studies in Second Language Acquisition*, *TESOL Quarterly*, among others. He is a co-editor for *Language Testing*. Xun was the recipient of the ETS TOEFL Essentials New Scholar award in 2022 and the ILTA/Sage Best Book Award in

Plenary Speakers

Professor Ying Zheng — Jamie Dunlea Lecture

University of Southampton

Sponsored by

Sunday 20 September | 09:30–10:30 | HG02

Researching Mandarin Chinese Education Beyond Asia: Evidence, Challenges, and Synergies

As Mandarin Chinese continues to play an important role in education, particularly amid growing interest in multilingualism and global engagement, understanding the interplay between teaching, learning, and assessment of this Asian language in a non-Asian context remains essential. This presentation draws on a series of empirical studies, offering insights into key aspects of Mandarin Chinese education, including learner motivation, teacher development, and exam evaluation.

I will present findings from studies conducted in recent years by the Southampton team, exploring factors that shape learner motivation across educational stages, from primary school to university, and Mandarin teachers' professional development, including the experiences of language teachers across borders and the ways transnational trajectories influence classroom practice. I will also present research findings on the alignment of A-Level Mandarin exams with the CEFR and the challenges teachers encounter in translating exam requirements into classroom practice.

To conclude, I will propose a reflective synergy approach that encourages teachers to engage as researchers, bridging the gap between research and practice to enhance Mandarin teaching and assessment. The presentation will highlight the wider relevance of this work for strengthening Mandarin Chinese as a foreign language education globally, where learner profiles, exposure patterns, and institutional expectations differ, supporting more equitable, context-sensitive, and sustainable approaches to teaching and assessment.

Ying Zheng is a Professor in the Department of Languages, Cultures and Linguistics at the University of Southampton, UK. She holds a PhD in Cognitive Studies from Queen's University, Canada, specialising in second language testing and assessment. Before joining Southampton in 2013, she worked as a psychometrician and later director of research in the language testing division at Pearson London. Her research focuses on psychometrics, large-scale test validation, scale alignment, Mandarin exams in the UK school system and AI-enabled language assessment. *Jamie Dunlea Lecture supported*

Pre- and Post-Conference Workshops

Professor Dina Tsagari

Oslo Metropolitan University

Friday 18 September | 14:00–17:00 | Culture Centre Room 1

Assessing English Language Students with Specific Learning Difficulties

Dina Tsagari is Professor in the Department of Primary and Secondary Teacher Education at Oslo Metropolitan University. Her research spans language testing and assessment, differentiated instruction, multilingualism, distance education, learning difficulties and inclusive education.

Workshop overview

An inclusive-assessment workshop examining how specific learning difficulties, including dyslexia and ADHD, may affect language learning and assessment. Participants consider barriers in conventional assessment and apply differentiation, reasonable accommodations and Universal Design for Learning to classroom-based assessment.

Dr Gwan-Hyeok Im

Konkuk University Glocal Campus

Friday 18 September | 14:00–17:00 | Culture Centre Room 2

Validity and Validation in Language Assessment: Concepts, Evidence, and Argument-Based Approaches

Gwan-Hyeok Im is Assistant Professor in the Department of English Language and Culture at Konkuk University Glocal Campus. His research focuses on validity and validation in second-language testing, English-medium instruction, digital literacy and emerging technologies in education.

Workshop overview

A practical introduction to contemporary validity and argument-based validation. Participants work with claims, assumptions, evidence and rebuttals, analyse possible sources of measurement error and collaboratively construct a simple validity argument. No advanced statistical background is required.

Pre- and Post-Conference Workshops

Dr Yuanyue Hao

University of Oxford

Friday 18 September | 14:00–17:00 | HG01

Unpacking Deep Learning and Neural Networks: Fundamentals and Hands-On Application in Language Assessment Research

Yuanyue Hao is a doctoral researcher in the Department of Education at the University of Oxford. His work examines automated pronunciation assessment, algorithmic fairness, auditing algorithms and the rigorous use of machine learning and causal inference in applied linguistics.

Workshop overview

A conceptual and hands-on introduction to deep neural networks for language assessment. The workshop covers key training concepts, a guided Python analysis and critical questions involving fairness, interpretability and transparency. Participants should bring a laptop and have access to a valid Google account for the Colab notebook.

Professor Quan Zhang

South China Business College of Guangdong University of Foreign Studies

Monday 21 September | 09:30–12:30 | Culture Centre Room 1

Item Analysis and Test Equating in the Age of AI

Quan Zhang is a visiting professor at South China Business College of Guangdong University of Foreign Studies and Secretary-General of the Pacific Rim Objective Measurement Society for mainland China. His long-standing work includes large-scale examination development, item production and Rasch modelling for language testing.

Workshop overview

This post-conference workshop introduces Classical Test Theory item analysis and Rasch-based test equating with Rasch-GZ. It combines conceptual foundations, software demonstration, classroom practice and discussion. Participants may bring their own data for on-site analysis.

Essential Attendee Information

Conference venue	City University of Macau, Taipa Campus
Wi-Fi SSID	CityU-Event-Guest
Wi-Fi password	AALA2026@CITYU
Help desk/Lost and Found	Culture Centre Entrance throughout the conference days

Registration

- Campus registration is at the Culture Centre entrance.
- Registration at Zam Zam, Regency Art Hotel, is available only from 17:30-18:30 on Friday 18th September before the Welcome Reception.

Meals, Reception and Banquet

- Coupons for two lunches and the Welcome Reception are included in the conference bag.
- Please present the appropriate coupon when collecting your lunch box.
- The Welcome Reception is open to registered attendees and takes place at Zam Zam, Regency Art Hotel.
- Banquet eligibility is marked on the name badge. Please wear your badge to enter the banquet at 17th Floor, Altira Macau.

Paper Presentations

- Each paper presentation is allotted 20 minutes for the presentation and 5 minutes for questions and answers.
- Bring the presentation file on a USB drive and keep a PDF backup copy.
- Arrive at the session starts and classroom at least 10 minutes before the session and ask a volunteer to copy the file to the classroom computer.

Poster Presentations

- Poster size is A1 (841 × 594 mm).
- Presenters must print and bring their own posters to the venue.
- Volunteers will assist presenters in mounting posters on the designated boards from 9:00 am on the day.
- Poster display hours are 10:30–15:30 on 19 and 20 September.

Attendance Certificate

Your individual presentation certificate can be collected from the reception desk at Culture Centre entrance.

Session-Chair Instructions

Chair assignment

The first scheduled presenter in each classroom serves as chair for that session block.

- Arrive at least 10 minutes early and confirm the presentation order with the volunteer and presenters.
- Briefly welcome the audience, introduce each presenter and keep the session to the published timetable.
- Give a two-minute warning near the end of each 20-minute presentation and stop the presentation at 20 minutes so that 5 minutes remain for questions.
- Invite concise questions, manage transitions and ensure that the next presentation begins on time.
- Report technical problems or presenter absences to the classroom volunteer or registration/help desk.
